FORTBRAND SERVICES, INC., AND AL-JON MANUFACTURING LLC ANNOUNCE THE SALE OF FOUR VAMMAS PSB 5500 MULTI-FUNCTION SNOW REMOVAL VEHICLES TO DETROIT METROPOLITAN WAYNE COUNTY AIRPORT (DTW)

Plainview, New York, June 1, 2016

Fortbrand Services, Inc., the exclusive worldwide distributor of the Vammas snow removal product line, and Al-jon Manufacturing LLC, the North American manufacturer of the Vammas snow removal product line, today announced the sale of four (4) additional Vammas PSB 5500 multi-function snow removal vehicles to the Wayne County Airport Authority for use at Detroit Metropolitan Wayne County Airport (DTW).

The purchase is in addition to the recent purchase of three Vammas PSB 5500 vehicles and will increase DTW's Vammas PSB 5500 fleet to fourteen (14) vehicles. The units have the latest Vammas technology, including the P8400 flexible polyethylene moldboard plow and a 46" wafer broom. DTW's purchase was the result of an evaluation of their current Vammas fleet, as compared to other equipment, as well as a desire to maintain a fleet with commonality of spare parts and operating characteristics.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vammas snow removal vehicles, the Hagie GST 20 multi-season airport vehicle, the Beam multi-task airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher and the Prinoth SW4S all season snow removal and summer maintenance vehicle.
