FORTBRAND SERVICES, INC., AND BERGKAMP, INC., ANNOUNCE THE RENTAL OF THE BERGKAMP FP5 FLAMELESS POTHOLE PATCHER TO THE NEW YORK CITY DEPARTMENT OF TRANSPORTATION

Plainview, New York, December 15, 2014

Fortbrand Services, Inc., the exclusive North American distributor to the airport market of the Bergkamp product line, and Bergkamp, Inc., a manufacturer of pavement maintenance equipment, today announced the rental of one (1) Bergkamp FP5 Flameless Pothole Patcher to the New York City Department of Transportation. The unit will be used to fill pot holes on roadways throughout the five boroughs of New York City.

Equipped with state-of-the-art electric heating systems, a hydraulic AC generator to consistently heat asphalt and an outstanding track record, the Bergkamp FP5 Flameless Pothole Patcher fills the needs at any airport or municipality. The 5.1 yard insulated hopper and bin doors maintain uniform heat, prevent wasted material and eliminate areas where mix can harden. Along with superior aftermarket support, the Bergkamp FP5 Flameless Pothole Patcher is both cost effective and economical. The simple and easy to use operating system enables operation of the unit in the most efficient manner possible.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vammars snow removal vehicles, the Hagie GST 20 multi-season airport vehicle, the Beam multi-task airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher and the Prinoth SW4S all season snow removal and summer maintenance vehicle.
