Fortbrand Services, Inc., exclusive worldwide distributor of the Vammas snow removal product line, and SpecTech AM, the Russian dealer for the Vammas snow removal product line, today announced the delivery of two (2) Vammas SB5500 tow-behind snow removal vehicles and one (1) Vammas PS3500 edge light plow to Ufa International Airport (UFA) in Russia.

The SB5500 has a 46" diameter cassette broom and will be paired with a Mercedes chassis, which will utilize the Vammas P8400 flexible polyethylene moldboard plow.

The PS3500 edge light plow clears runway and taxiway lights of snow accumulations in a fraction of the time, and at a substantially lower cost in human resources, than alternative methods.
