FORTBRAND SERVICES, INC., AND BEAM A/S ANNOUNCE THE DELIVERY OF TWO BEAM GLYCOL RECOVERY VEHICLES TO AERO MAG 2000 FOR USE AT EDMONTON AND MONTREAL INTERNATIONAL AIRPORTS

Plainview, New York, December 15, 2016

Fortbrand Services, Inc., the exclusive North American distributor for Beam A/S, a Danish manufacturer of specialized, high performance airport sweepers, announces the recent delivery of two (2) Beam A8000 Glycol Recovery Vehicles (GRV) to Aero Mag 2000 for use at Edmonton and Montreal International Airports (YEG & YUL).

The A8000 GRV is a self-contained, one operator vehicle capable of performing a continuous, extended glycol recovery operation through the use of its high capacity, heated containment hopper. The working components are mounted on a U.S. manufactured chassis and are comprised of a heavy duty, heated stainless steel hopper and detergent tanks. Primarily designed for glycol recovery, the A8000 GRV is also capable of performing the recovery of various liquids or debris through its full width, mid-mounted suction nozzles.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vmmas snow removal vehicles, the Hagie GST 20 multi-season airport vehicle, the Beam A9000 multi-task airport service vehicle, the Bergkamp FP5 flameless pothole patcher and the Prinoth SW4S all season snow removal and summer maintenance vehicle.
