FORTBRAND SERVICES AND BERGKAMP, INC., ANNOUNCE THE SALE OF BERGKAMP FP5 FLAMELESS POTHOLE PATCHERS TO DENVER INTERNATIONAL AIRPORT (DEN) AND EAST BRUNSWICK, NJ, DEPARTMENT OF PUBLIC WORKS

Plainview, New York, July 15, 2017

Fortbrand Services, Inc., the exclusive North American distributor to the airport market of Bergkamp pothole patchers, and Bergkamp, Inc., a manufacturer of pavement maintenance equipment, today announced the sale of one (1) each Bergkamp FP5 Flameless Pothole Patcher to the City of Denver for use at Denver International Airport (DEN) and to the East Brunswick, NJ, Department for Public Works for use on the city's system of roadways.

Equipped with state-of-the-art electric heating systems, a hydraulic AC generator to consistently heat asphalt and an outstanding track record, the Bergkamp FP5 Flameless Pothole Patcher fills the needs of any airport or municipality. The 5.1 yard insulated hopper and bin doors maintain uniform heat, prevent wasted material and eliminate areas where mix can harden. Along with superior aftermarket support, the Bergkamp FP5 Flameless Pothole Patcher is both cost effective and economical. The simple and easy to use operating system enables operation of the unit in the most efficient manner possible.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vmmas snow removal vehicles, the Beam multi-task airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher and the Prinoth SW4S all season snow removal and summer maintenance vehicle.
