FORTBRAND SERVICES, INC., AND C&C MANUFACTURING LLC ANNOUNCE THE SALE OF EIGHT VAMMAS ST/SB 5500 MULTI-FUNCTION SNOW REMOVAL VEHICLES TO TORONTO PEARSON INTERNATIONAL AIRPORT (YYZ)

Plainview, New York, November 8, 2017

Fortbrand Services, Inc., the exclusive worldwide distributor of the Vammas snow removal product line, and C&C Manufacturing LLC, the North American manufacturer of the Vammas snow removal product line, today announced the sale of eight (8) Vammas ST/SB 5500 multi-function snow removal vehicles to the Greater Toronto Airports Authority for use at Toronto Pearson International Airport (YYZ).

The GTAA is the North American launch customer for the Vammas ST/SB 5500, a modular multi-function snow removal vehicle, which provides the superior performance for which Vammas is globally known.

The purchase will increase YYZ's Vammas fleet to nineteen (19) vehicles and is part of a multi-year contract, which allows for the purchase of additional Vammas vehicles. YYZ's purchase was the result of an evaluation of their current Vammas fleet, as compared to other equipment, as well as a desire to maintain a fleet with commonality of spare parts and operating characteristics.

Fortbrand Services is a niche business specializing in the sale, lease and rental of aircraft ground support equipment throughout the aviation industry. The Company also acts as a distributor of unique aviation and airfield maintenance equipment, including high-speed Vammas snow removal vehicles, the Beam multi-task airport service vehicle and glycol recovery vehicle, the Bergkamp FP5 flameless pothole patcher, the Prinoth SW4S all season snow removal and summer maintenance vehicle and the Prinoth Husky and Bison snow groomers.
