**Ready for action at any time**  
The HV battery can be recharged in just two to three hours at any public car charging station thanks to a 22 kW on-board charger.

**Choose your settings**  
The CSense display (10.1 inch touch display) with intuitive design for extended functions, central overview of all settings and visual diagnostic system. The displayed vehicle set-up can be individually chosen by the driver.

**Maximum service life**  
The exceptionally robust and maintenance-free design of the HV battery ensures maximum service life in daily operation and minimum deterioration of the cells.
